This is a follow-up of a case from August 12, 2012 and another complaint on January 30, 2013. They never fixed this problem but continue to promise the world. This driveway has been marked for months to repair so now another leak going into the garage. The colorful driveway picture was taken May 13, 2013 Regina's drive way January 30, 2013.

Yes, it goes on for years and they always have to replace the concrete again. It cost's more then put a new line in there, what would hold up to the street, it does not make sense to me! I young man came by, Kenny, and told me they will repair it again and it looks like there is a other leak father up the driveway ? He noticed it too.
What a mess, it looks like they have to repair all 4 concrete patches, in front of my garage, they just replaced two about a year ago!

Thanks for all your help, Regina

I cannot believe they have never fixed this problem. Please send this to ORS and I will send it to DHEC for you. Let me know what they do and when. You should get a rebate for water usage as this happens too frequently. This has been going on for years.

Is it really fixed this time? I am sure that Chad was a big help to us. He must get sick of me calling on him but he is always helpful. I will drop by and see it and possibly take another picture to send him.

Thank you, thank you, thank you,
to all who made it possible to repair our leak. Thank you for standing with the people in Tega Cay. A great place to live. Lets hope they replace the hole pipe, so we can enjoy the new driveway for a long time.
Much appreciation to everybody who was involved to make it happening.

Thanks again, Regina Ebert
